                  Wapiti 3.2.10 - wapiti-scanner.github.io
                     Report for https://uptoskills.com/
              Date of the scan : Sun, 22 Feb 2026 09:13:29 +0000
                               Crawled pages : 228
                            Scope of the scan : folder
********************************************************************************

Summary of vulnerabilities :
----------------------------
                                                  Backup file :   0
                                Cleartext Submission of Password :   0
                                             Weak credentials :   0
                                               CRLF Injection :   0
                            Content Security Policy Configuration :   1
                                       Cross Site Request Forgery :   0
                                       Potentially dangerous file :   0
                                                Command execution :   0
                                               Path Traversal :   0
                            Fingerprint web application framework :   0
                                           Fingerprint web server :   0
                                                  Htaccess Bypass :   0
                                               HTML Injection :   0
                                         Clickjacking Protection :   0
                            HTTP Strict Transport Security (HSTS) :   0
                                              MIME Type Confusion :   0
                                            HttpOnly Flag cookie :   0
                                            Unencrypted Channels :   0
                                        Inconsistent Redirection :   0
                               Information Disclosure - Full Path :   0
                                               LDAP Injection :   0
                                                    Log4Shell :   0
                                                 NS takeover :   0
                                                Open Redirect :   0
                                    Reflected Cross Site Scripting :   0
                                             Secure Flag cookie :   0
                                                   Spring4Shell :   0
                                                SQL Injection :   0
                                      TLS/SSL misconfigurations :   5
                                   Server Side Request Forgery :   0
                                        Stored HTML Injection :   0
                                   Stored Cross Site Scripting :   0
                                            Subdomain takeover :   0
                                          Blind SQL Injection :   0
                                     Unrestricted File Upload :   0
                                          Vulnerable software :   0
